New Splash Screen – New Product Logo

We are excited to announce the launch of our new splash screen and logo! This update is designed to match our web site design and to enhance your experience with our brand, reflecting our commitment to geo science. We believe these changes will not only modernize our appearance but also strengthen our connection with you.

DLIS Support

DLIS is now supported in EasyCore and allows you to include and visualize image data in your EasyCore project for faster and better analysis.

Visualizing image log data options available in the Customize menu in the context menu.

Data Import

- Import Data from Context Menu is now available for all types of data columns. (see capture example with Facies)
- Added support for XLSX with Top/Bottom interval columns

Image Import

- Multipage PDF now treated as a separate image per page.
- Removal of selected images possible from the context menu
- Support for Carl Zeiss (czi)

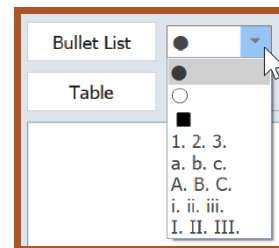

Data Export

Data export based on data points (plugs) now available.
Select Data Intervals

<input type="radio"/> Data Intervals. One row for each data point or interval of	Plugs	8	2109.050	2109.050
--	-------	---	----------	----------

Notes Column

More bullet styles added

License Installation

License installation is now possible for clients without having administrator rights.

Academic Licenses

If you or someone you know is interested in our Academic Program or is already using our software for educational purposes free of charge the process is now easier than ever 😊 Go to our website: <https://myeasycopy.com/academic-projects> and see if your university is enrolled.

If yes, register with the university e-mail address and use the "Request License" link in the software.

If no, send an e-mail to Sales@myeasycopy.com and ask for assistance.
